Objective:

To find a challenging position with a stable company to extend my professional IT career.

Education:

- B.S. Digital Information Design, Winthrop University (2012-2015)
 - Web applications emphasis
- Greenville Technical College (2010-2012)
 - Computer programming emphasis
- High school graduate of J.L. Mann High School, Greenville SC (2010)

Work Experience:

- *IT Consultant @ CGF-LLC* 2017
 - I have been working as an IT support resource at the BMW North American operations center in Greenville SC. Responsibilities have included IT asset management of laptops, workstations, printer multi-function devices, and other similar IT equipment. Additionally, tech support duties have included imaging laptops, performing Active Directory maintenance, and various other desktop installation/maintenance services.
- *Web Developer / Intern @ Richardson IT Consulting* 2015-2016
 - I worked with my father, who is an IT Consultant, on various engagements. We have collaborated on developing/customizing internet websites (HTML, CSS, jQuery, Bootstrap, responsive design, parallax scrolling, ASP.net, C#, FTP), creating/consuming web services (PHP, MySQL, CRM), customizing SharePoint sites (web-parts, javascript, styles), and delivering associated project documentation (MS Office, Jira).
 - Key projects included:
 - Developing a front-end website application that interfaced to a cloud-based InfusionSoft CRM system using RESTful web service api.
 - Using content editor web-parts to customize SharePoint intranet pages using standard web front-end components, including specialized javascript libraries.
- *Part-time Programmer for KW Enterprises* 2013-2015
 - I spent 2 years addressing programming needs for a small leasing/finance business. Work included website maintenance (WordPress, Flash, Photoshop), customer database maintenance and reporting (MS Access), marketing emails, and various other business support special projects.

Key Skills:

- Knowledgeable in both Apple and Windows environments.
- HTML, CSS, jQuery, Bootstrap, FTP, GitHub, MySQL, PHP, BaseCamp, Java, ASP.net MVC, C#, C++, Visual Studio, Ruby-on-Rails, WordPress, Jira, Selenium, Multimedia tools (Flash & Photoshop), MS Office, Ubuntu Linux.
- Responsive website design and parallax scrolling techniques.
- Agile Methodology, SEO Techniques, Code Frameworks, Content Management Systems (CMS), RESTful Web Services, SSH clients, ODBC, CRM api.
- Data management using diverse computer application systems.

Other Pertinent Information:

- My personnel website can be seen at <http://www.weston-richardson.info>.
- Various code samples are located at <https://github.com/weston-richardson/WebsiteCode>
- I performed volunteer work with Hands-On-Greenville multiple times.
- Since January 2018, I have been taking [CompTIA A+ and Network+ certification](#) preparatory classes at Central Piedmont Community College (CPCC) in Charlotte NC. Concurrently, I have been taking the [Google IT Support Professional Certificate](#) online program.
